Education

Lewis University

Bachelor of Science in Computer Science, Cum Laude

August 2026

Romeoville, Illinois

Technical Skills

Languages: JavaScript, Python, C++, HTML, CSS, SQL

Frameworks & Libraries: React, React Router, Flask

Cloud & Databases: Firebase Authentication, Firestore, Firebase Hosting, Azure Static Web Apps

Developer Tools: Git, GitHub, Visual Studio Code, Vite, PyCharm

Web Technologies: Responsive Web Design, Form Validation

Projects

Mobile Mechanic Website | *React, React Router, Firebase, Firestore, CSS* [GitHub](#) — [Live Demo](#)

- Developed a full-stack web application that allows customers to schedule mobile mechanic services through an online booking form.
- Implemented Firebase Authentication to secure an administrator dashboard for reviewing and managing customer service requests.
- Integrated Firestore for cloud-based storage and management of customer booking information.
- Built reusable React components, client-side form validation, responsive layouts, and navigation using React Router and CSS.
- Deployed the application using Firebase Hosting and managed source code with Git and GitHub.

LewisCal | *JavaScript, Firebase* [GitHub](#) — [Live Demo](#)

- Developed a web application that helps Lewis University students convert course schedules into subscription-ready calendars.
- Generated iCalendar files that can be imported into Google Calendar, Apple Calendar, and Microsoft Outlook.
- Used JavaScript to process course information and generate organized calendar events for students.
- Collaborated in an Agile environment using sprint planning, backlog management, and iterative development.

Personal Portfolio Website | *HTML, CSS, JavaScript, Azure Static Web Apps* [GitHub](#) — [Live Demo](#)

- Designed and deployed a responsive portfolio website to showcase software development projects, technical skills, and professional experience.
- Built a mobile-friendly interface using HTML, CSS, and JavaScript for consistent usability across screen sizes.
- Configured continuous deployment through GitHub using Azure Static Web Apps.

Experience

Jewel-Osco

February 2017 – Present

Third Front-End Manager

Downers Grove, Illinois

- Support daily front-end operations by coordinating employee breaks, assigning responsibilities, and helping maintain efficient customer service.
- Process customer transactions involving refunds, money services, lottery purchases, postage stamps, and other service-desk responsibilities.
- Balance cash registers and service-desk funds while maintaining accurate transaction and reconciliation records.
- Troubleshoot point-of-sale equipment and resolve register issues to reduce interruptions to store operations.
- Handle customer concerns and escalations by identifying problems and providing appropriate solutions.

Certifications

C++ Language Proficiency Certification

College of DuPage

May 2024

Glen Ellyn, Illinois
